Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The amendment filed on January 23, 2009 has been entered. Claims 1-21 are pending, and claims 2, 4-5, 7 and 9-19 remain withdrawn from further consideration.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 8 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hagemeister. Hagemeister discloses a plurality of substrates 1a, 1b having a plurality of long plates 5 with semi-elliptical recesses, and slits 4.

Regarding claim 8, the claim reciting “welding” is considered to be a method limitation in an apparatus claim, which bears no patentable weight in this instance. See MPEP 2113. Arguendo, Hagemeister (column 6, lines 59-61) discloses the substrates 1a, 1b are welded together.

Regarding claim 20, the recesses form flow channels.

Allowable Subject Matter

Claims 3, 6 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

The rejections in view of Takashi (JP 3055130), Karmazin and Dewar are withdrawn in view of the amendment.

Applicant's arguments have been fully considered but they are not persuasive.

Regarding applicant's remarks with respect to Hagemeister, the claims do not specify the length of the longitudinal and continuous slits. However, objected claim 21 appears to further define this feature.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
